

Recommended Reel Handling Practices How to Handle Cable Reels

Recycling/Reel Return

YES

NO

Cradle both reel flanges between forks.

Upended heavy reels will often arrive damaged. Refuse or receive subject to inspection for hidden damage.

Reels can be hoisted with a shaft extending through both flanges.

Do not lift by top flange. Cable or reel will be damaged.

Lower reels from truck using hydraulic gate, hoist or fork lift. **LOWER CAREFULLY!**

Never allow forks to touch cable surface or reel wrap.

Always load with flanges on edge and chock and block securely.

Never drop reels.

Broken Reel Extreme Makeover Program
Innovative solution to salvage broken reels with good cable on it. Reels are picked up, examined and reran on new reels, avoiding scrapping expensive wire.

Empty Wooden Reels Recycled program
AWG continuously picks up empty wooden reels at no cost. This eliminates labor and time to breakdown reels, as well as refuse costs.
