American Wire Group Announces Felipe Cam as Chief Information Officer

June 17, 2024, Miami, Florida – American Wire Group (AWG) is pleased to announce the appointment of Felipe Cam as the Chief Information Officer (CIO), effective June 3. Felipe is the first CIO in AWG’s history – marking a major milestone in the company’s growth. Felipe will be responsible for leading and supporting the innovative digital transformation of AWG’s networks.

“We are thrilled to welcome Felipe as our new Chief Information Officer,” said Michael Dorfman, CEO of AWG. “His extensive experience combined with his passion for innovation makes him the perfect leader to spearhead our digital transformation and take our business operations to the next level. We are confident that his leadership will bring significant value to our organization and our clients.”

As AWG’s CIO, Felipe will oversee emerging technologies, utilize critical success metrics to drive IT strategies, and focus on strengthening the security and efficiency of internal technology infrastructure. Felipe will also play a critical role in integrating and managing technology solutions that will elevate the customer experience and efficiency across our organization.

Felipe earned his undergraduate degree from the University of Illinois and his executive MBA from the University of Miami. He brings a wealth of experience from his previous roles across logistics, manufacturing and commerce industries.

American Wire Group (AWG) is the leading material supplier of wire & cable, hardware, equipment, and accessory solutions for the utility and renewable energy markets. We maintain an extensive inventory of products utilized in the power T&D, substation, solar, wind BESS, and EV infrastructure markets in our warehouses across the country. AWG offers comprehensive services to our customers around the world, including cable management, cable engineering and design, emergency services, and more. Visit us at www.buyawg.com
