

AWG
AMERICAN WIRE GROUP
EMPOWERING A BETTER WORLD

Empowering America's Data Center Revolution

The data center industry is experiencing unprecedented growth, fueled by soaring demand for cloud computing, artificial intelligence (AI), and digital infrastructure. Across the United States, new data centers are rising at a record pace, becoming the backbone of the modern economy. However, this boom brings significant challenges: supplying essential materials nationwide on short deadlines and expanding and strengthening the electrical grid to deliver reliable, high-capacity power to these critical facilities.

To meet the energy demands of tomorrow's data centers, the grid must evolve—requiring innovative solutions in wire, cable, power equipment, and supporting hardware and accessories. That's where American Wire Group comes in.

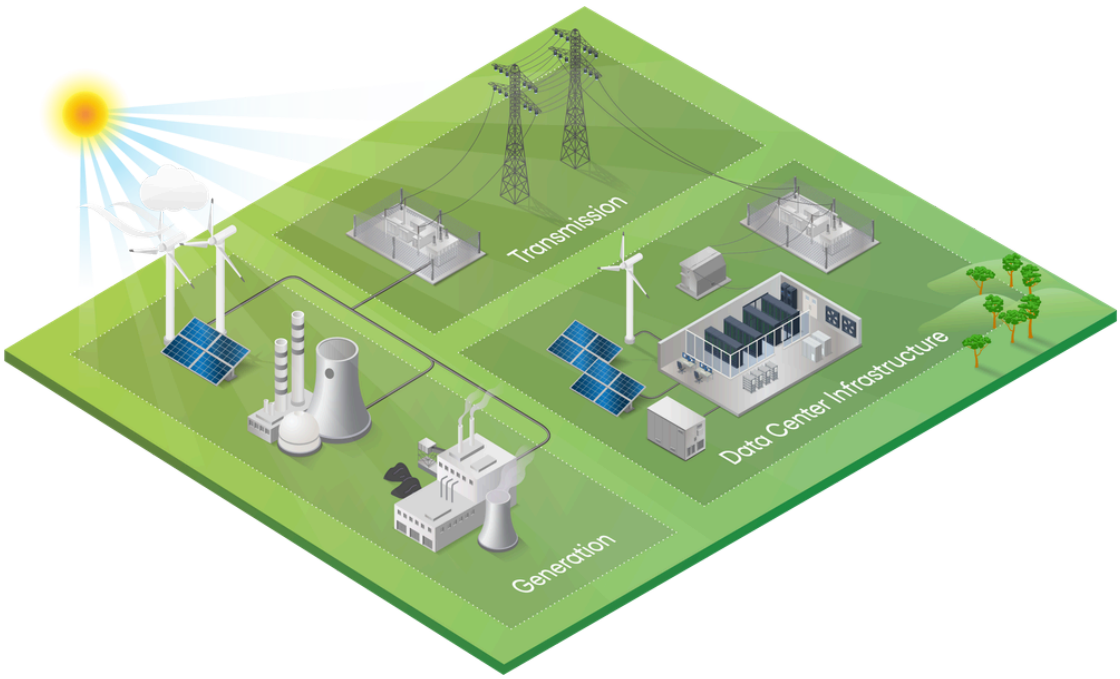

We Are Your Partner in Achieving Five-Nines Data Center Reliability

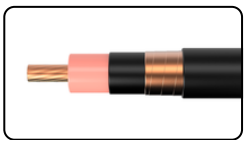

AWG is proud to stand at the forefront of this transformation. We are the industry's trusted single source solution for the wire, cable, power equipment, hardware, and accessories essential to building these data centers and upgrading the grid in which they depend on. Our nationwide reach and commitment to fast, reliable delivery empower America's data centers to build, connect, and scale with confidence—today and into the future.

American Wire Group + Data Center Infrastructure

Empowering the Future of Data Center Infrastructure

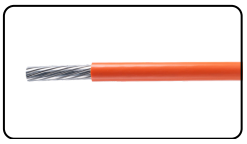

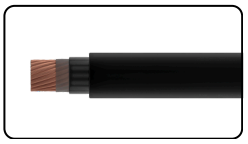

PowerGuard® Medium Voltage Power Cables (EPR), 5 kV - 35 kV MV-105

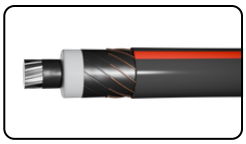

ControlGuard® Substation Control Cables, 0.6 kV - 2 kV

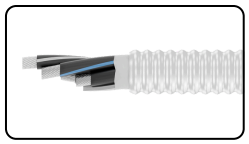

CWC LowFriction® XHHW-2 and THHN/THWN-2 (All colors available)

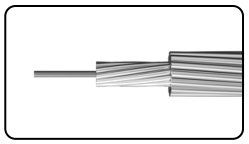

TowerGuard® DLO / Portable Power Cables

PowerGuard® Medium Voltage Power Cables (TR-XLPE) 5 kV - 35 kV MV-90 and MV-105

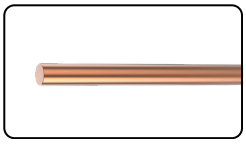

Type MC Armored Cable

Bare Aluminum Conductor T&D Types ACSR, AAAC, AAC, ACAR, ACSS

600 V Aluminum USE-2, RHH or RHW-2

Bare Copper

Switchgear

Transformers

Hardware & Accessories

Locations

Services

AWG provides critical product support and value added services at every stage of data center development—generation, transmission, and distribution.

We deliver the services, speed, and expertise needed to keep data center projects on track from start to finish.

Our services include:

- Cable engineering and design tailored to your exact application needs
- Custom cut-to-lengths to reduce waste and simplify installation
- Paralleling and pulling eyes for easier handling and faster deployment
- Project management support to align with your build schedules
- Same-day shipping and fast delivery from strategically located warehouses
