

AWG

AMERICAN WIRE GROUP

Who We Are

Established in 2001, American Wire Group (AWG) has become the leading material supplier of wires, cables, and accessories solutions for the power transmission, distribution, substation, solar, wind, battery energy storage, and EV infrastructure markets.

AWG's primary mission is to provide a complete solution from inventory, in all aspects of electrical transmission & distribution systems, and power generation. Our range of products includes low voltage, medium voltage, extra high voltage, control cables as well as fiber optics for the electric power grid.

Our People

- Over 100 employees
- Professional Engineering Team (Applications, Cable Design & Electrical)
- AWG sales professionals and reps covering the United States & Canada

Guaranteed Performance

We aim for 100% customer satisfaction. It's not what we promise to do; it's our record of doing what we promise!

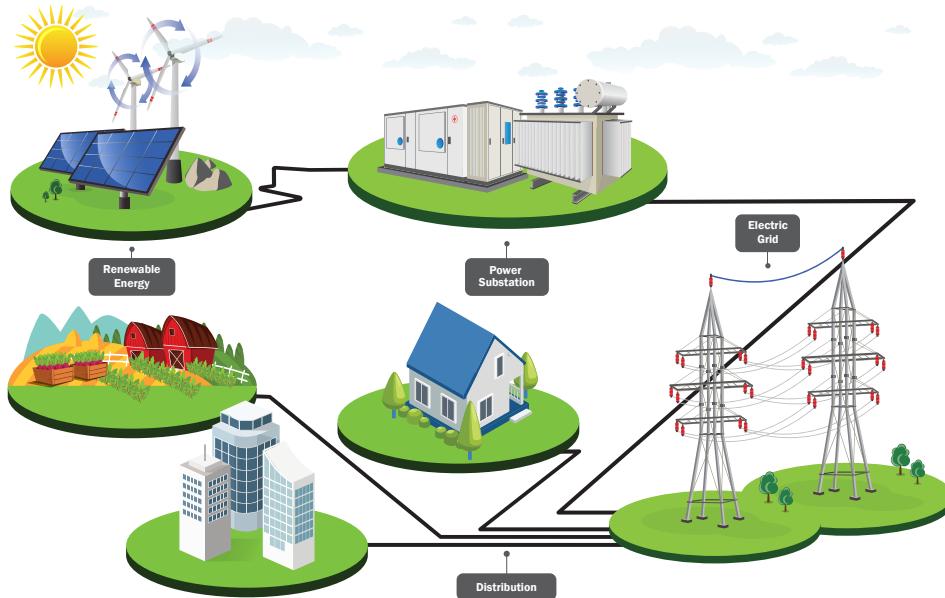

Emergency Management Services

At AWG, our emergency response capabilities set us apart from our competition. We work with our customers around the clock until power or service has been fully restored.

AWG specializes in custom cables and hard to find items, ensuring that we can assist emergency response teams in locating the components and electrical hardware that they need.

We maintain a large inventory in a national network of distribution centers and warehouses, ensuring that we can respond quickly to emergencies in virtually any part of the country.
